Run the stairs

Creator: Bc. Martin Bendel
Adviser: RNDr. Vít Rusňák, Ph.D.

Description

- Project for town of Rosice.
- Track your time for run up the stairs.
- See statistics about your improvements. (or lack of them)

MUNI
FI

Requirements

1. No need to register.
2. Easy to use.
3. Available for everyone.
4. Allows you to see your statistics.

MUNI
FI

Solutions

- Browser app.
- QR code entry point.
- Statistics tracked by UUIDs stored in localStorage
- Registrations done in app or by "Sign in by …" features in APIs

MUNI
FI

Current progress

- No visualization, sign in functionality or backend.
- All different types of timer data collection prepared for user testing.
- No styling at all.

User study

- We need to know the easiest / most expected way of collecting run time data.
- Intuitiveness > Precision

Showcase
